

## RYA Yachtmaster/Coastal Skipper Theory Course

Tuesday 17<sup>th</sup> January 2012      1900 - 2130      12 weeks

This course is an advanced course aimed at students who wish to skipper a yacht on longer coastal passages or who are working towards the Coastal Skipper or Yachtmaster Offshore practical exams. It requires knowledge equivalent to the Day Skipper Theory and some practical experience is also recommended.

The Yachtmaster/Coastal Skipper Theory Course covers the following:

- Advanced navigation techniques,
- Tidal heights including detailed secondary port calculations
- Tidal Streams
- GPS and chart plotters
- Meteorology including weather prediction by observation
- Collision regulations
- Stability
- Safety

On successful completion you will have enough knowledge to plan and execute a coastal passage anywhere in the world.

Towards the end of the course you will be given three assessment papers to complete; meteorology, chartwork and **collision regulations**.

### Costs:

Course fee	£295
RYA materials	£ 50
Plotting tools	£ 25 (if required)

In addition you will need to purchase 2 or 3 other publications to supplement your studies.
